

COMMERCIAL.

Money.—Money is scarce, with an active demand—Confidence, however, rapidly returning, and the prospect for better times, is, we are pleased to say, brightening. At present, there is very little capital seeking investment, and stocks are dull, though we have no decline to note. Since our last report there has been a decline of 2½¢ on Eastern Exchange, which we now quote nominally at 3½¢ on New York; 36½¢ on Philadelphia, and 14½¢ on Baltimore, with a limited demand, and more sellers than buyers.

Land Warrants are dull, and we have no quotations to give.

Bank of Commerce.

This institution in the report made out for the quarter ending the 31st Dec., ultimo, is reported as having over twenty thousand dollars of gold in its vaults, notwithstanding the decline of the currency in the Governor's estimate of the condition of the various banks in the State. We believe the Governor's statement showed a circulation of about \$24 in notes for each \$1 of specie in its vaults. Unexplained this certainly betokened a dilapidated state of affairs, to use no harsher term. But the true state of the case was this: The Bank had some \$4,000 or \$5,000 of specie drawn from its vaults just before its quarterly report was made out, and in addition had gold lying in the city of Baltimore, in the express office, to the amount of \$15,000. This, with the \$2,000 in hand, would have run up the specie fund to \$25,000. As the Bank suspended, and had no present need for the gold lying in Baltimore, it was not thought necessary to have it brought in time to be embraced in the Bank's quarterly report of Oct. 1, 1857—hence the very questionable position and condition of the Bank as exhibited in the report from whence Gov. Wise obtained his data.

We learn that a Stockholder's meeting of the Bank will be held on the 13th, and an early resumption is predicted.

The policy of the Bank will doubtless be changed. Hereafter, large loans have been made in remote quarters, whilst little or no accommodation has been afforded our citizens. Indeed, for all practical purposes, as far as this community was benefited, the Bank of Commerce might just as well have been located in Kamshatta as in Fredericksburg.

On the 1st of October, when the Bank suspended, it had a circulation of \$149,005. Now, it has a circulation of \$108,870—a decrease of nearly 41,000. When it suspended its deposits amounted to \$40,737; now they amount to only \$8,047—decrease over \$32,000—or a total decrease of liabilities of over \$73,000 within the last three months.—*Fred. Herald.*

The receipts of produce during the week have been very light, and transactions to a limited extent. Quotations are nominal. Union Street Flour is offered at \$4 50. White Wheat has been sold in small lots at 100¢/100¢, and red at 95¢/100¢. In Rye, Oats, and Corn, there has been nothing doing. Pork is in abundant supply, with an active demand. We quote dressed Hogs at \$6 75 @ \$7 00 per 100 lbs.

Business is improving, and next week we may expect larger receipts of produce, and more activity in the market.

THE MARKETS.

BALTIMORE, Jan. 8.—Flour firm at \$4 50 for all varieties of superfine. Wheat steady; white \$1 05 @ \$1 12; red \$1 00 @ \$1 06. Corn buoyant; new white 54¢ @ 55¢; yellow 52¢ @ 53¢. Whiskey is dull at 40¢/41¢.

NEW YORK, Jan. 8.—Flour is firm; sales of 7,000 bbls, at an advance of 5¢; State \$4 30 @ \$4 35; Ohio \$4 30 @ \$4 35. Wheat is firm, sales of 8,500 bushels. Corn is buoyant; Southern yellow 63¢ @ 64¢. Pork is quiet, at \$15 15 @ \$15 25. Lard is quiet—40¢ @ 41¢. Whiskey is firm—22¢. Stocks are generally lower. Cumberland Coal Co. 11½¢. Va. 6½¢. Missouri 6½¢. Sterling exchange is dull.

Coal Trade.

During the past year, as we see by the Cumberland Telegraph, 574,185 tons of coal were shipped from the mines of that county, including 134,732 from Jennings Run, 134,449 from Braddock's Run, 120,602 from the George's Creek region. These shipments show a decrease as compared with the shipments of 1856 of 142,143 tons, of which 32,585 tons occurred in the shipments from Jennings Run, 100,965 tons from Braddock's Run, and 8,569 tons from the George's Creek region. There should be added, however, the amount sent to market by the Hoffman and Tins Companies, reports from which have not been received. They will run up the total annual shipments by the Cumberland Company's road to somewhere in the neighborhood of 150,000, and make the aggregate shipment from the whole coal region for the year about 600,000 tons, or 116,000 tons less than the year previous. Since a first shipment of coal in 1847 there has been shipped from the whole coal region 4,281,824 tons.

Baltimore Cattle Market, Jan. 7.

CATTLE.—There was a larger supply of Beef Cattle at market to-day than on last market day, but the demand was brisk and the prices obtained were a shade better. The offerings at the scales reached \$50 on the whole, of which \$20 were sold to Baltimore butchers at prices ranging from \$3 20 to \$5 on the hoof, equal to \$5 00 @ \$5 75 head averaging \$4 gross, and the remaining 250 head were mostly driven away.

HOGS.—Hogs are coming forward more freely, and there was today a larger number in the pens than there has been for some days past. Hogs sold today at \$2 00 @ \$2 10 per 100 lbs. net, which is a considerable decline on the prices obtained a day or two since.

SHEEP.—Sheep are in better demand, and prices have advanced. We quote them today at \$3 25 @ \$4 50 per head.

Exchange with New York still continues to be in our favor. The banks of the latter city hold nearly five and a quarter millions of specie.

The news from New Orleans is that the banks of that city are discounting freely. Checks on New York were selling freely at a half per cent. The Michigan Central Railroad Company are advertising for a loan of ten millions of dollars, at eight per cent, the bonds with semi-annual coupons, having twenty-five years to run.

The Pork Trade.

As a general thing the market has been very dull during the week, and prices have ruled lower. The receipts have been larger than were expected, which caused the depression in the market, and all those who entertain ideas of a "short crop" the previous week have undergone a thorough change of mind in this respect, and are now holding back, exhibiting as much caution as can be.

It is now generally considered we will pack more hogs here than we did last year, and some talk fully one hundred thousand more will come in. This is probably above a correct estimate, though the advice from the surrounding country would render it a plausible one.

The whole number received this season is now within about 42,000 of the whole number packed last year, 105,000 of the number packed the previous year, and 119,000 of the number packed in 1855-4.

Our advice from the West are in substance, that over one-half of the Hogs in Iowa and Illinois have not yet been brought to market, feeders are determined not only in this State, but in the West, to hold back, and all the corn they possibly can to them before they bring them to market, and there can be no doubt that the packing business will be continued, until the weather becomes too warm for the business.—*Cincinnati Price Current.*

MANASSAS GAP RAILROAD.—We are glad to learn that this Company paid the interest on their bonds due in New York 1st of January, notwithstanding the predictions of the evil prophets. Amid the general failure to pay interest, this ought to cheer us up and inspire a new zeal for a success of the road. We hope, if anything is voted by the Legislature, we will get our share, although the worthy Governor, in all his various elementary works, recently published, seemed to have some knowledge of every other part of the State except this. Our people are willing to subscribe and do subscribe to works they desire, liberally, and they will contribute to the taxes cheerfully. All they want is even handed justice. But, notwithstanding present appearances, we do not despair. The clouds are always followed by sunshine.—*Rockingham Register.*

DELIBERATE AND MELANCHOLIC SUICIDE.

A young man named Wm. H. Clowes, a native of Amherst County, Va., committed suicide in Richmond on Thursday morning, by taking laudanum. From the attending circumstances, it appears to have been a long premeditated act, and he was at no trouble to conceal his purpose from his acquaintances. For some time past, he has been engaged in writing for the Board of Public Works, but recently has had no employment. His spirits were often much depressed, and he frequently gave utterance to despairing thoughts, conveying the impression that he was nothing worth living. Yesterday afternoon, he went to the room of a friend, opposite the Board Street Hotel, and there wrote several letters announcing his deliberate intention to destroy himself, a determination arrived at after years of reflection on the subject. During the evening, three or four gentlemen came in, and he stated that he had taken an ounce and a half of laudanum. They, however, seem to have discredited this assertion, for no effort was made to save his life. About 11 o'clock, when Mr. Shaw, tin occupant of the room, was preparing to retire, he went to the bed whereon Clowes was lying, and found him cold in death.

Clowes was in Kansas during the former troubles there. He afterwards served under Gen. Walker in Nicaragua; and was subsequently connected with the Memphis Bulletin.

Etiquette of the Crimea.—A correspondent of the Courier, writing from the Crimea, gives the following picture of society in that famous locality:

"There are many, perhaps, who suppose, from what they have read of Russia, that the Russians, customs and social society of the Russians would be far from agreeable to an American; but such is not the fact; for in no country that I have ever visited have I seen more politeness and refinement than exists in the respectable circles of Sebastopol. Although there are many points where etiquette differs from ours, yet, rather than diminishing it, it adds to the sociability of the company. For instance, the mightiest of all, which is the custom of an American lady to tell that, during the recess of a ball, the ladies retire to their apartments, (where no gentleman dares enter), light their paper cigars, smoke away, and chat merrily. Also, at the dinner table, after the dessert, ladies, as well as gentlemen, smoke their cigars and take their glass of wine, and while the smoke is curling up, their beautiful black eyes shine with additional lustre."

A Correction.—Capt. William Jamieson, U. S. N., who was retired on full-pay by the action of the late Naval Retiring Board, requests us to correct a misapprehension in his case that would otherwise grow out of our announcement of the late action of the President's reference to the names that came before the Naval Court of Inquiry. In that announcement he was made to appear as having been retiring in the position assigned him by the Retiring Board. Whereas, he did not bring his case before either Court of Inquiry. His name, therefore, was erroneously placed in our list.—*Wash. Star.*

In a sermon recently preached by Rev. Mr. Havens, at Brookville, he remarked, in the language of Scripture—"Gold and silver are the Lord's," and added, "paper money is an invention of man and devil."

LECTURE AT FAIRFAX C. H.—The Fairfax News says.—The Lecture delivered before the Providence Literary Society, on the evening of the 23rd of December, by DAVID FENSTER, Esq., of Alexandria, was in every respect worthy of the high reputation of its distinguished author. His subject—"The Harmony of the Sciences," was presented in a clear and forcible style, and was throughout highly instructive and entertaining. Many parts of it were sublimely beautiful. It was listened to with marked attention and delight by a large and intelligent audience.

BAPTIST CHURCH IN ALEXANDRIA.—(Correspondence of the Baltimore True Union.)—ALEXANDRIA, VA., January 1st, 1857.—The Baptist church in this place has been very greatly cheered and blessed during the past two months. One of the most interesting, as well as most successful revivals of religion, I have ever been a witness to, has been graciously bestowed upon us from the presence of the Lord. During the months of September and October, a few faithful ones, mourning over their own spiritual barrenness, and the extreme coldness of many of the members, humbled themselves before the mercy seat, and agonized in prayer with God. Our weekly meetings for conference and prayer soon grew deeply solemn and interesting. The usual Friday night lecture was given up for the time being, that more time might be devoted to prayer. Very soon the desire was expressed that the brethren would meet every night for prayer, conference and exhortation. On the 9th of November, therefore, we began our protracted meeting.

The Rev. Lovell Marders came and preached for us during two weeks. His sermons were weighty with solemn truths, uttered in the loving language for which that good brother is proverbial. An unusual seriousness pervaded the large congregation, which nightly gathered in the sanctuary. Before Bro. Marders left, he had the pleasure of seeing that about fifteen persons of different ages, indulged a good hope through grace that they have passed from death unto life. Immediately after Bro. Marders departed, the Rev. H. W. Read, formerly missionary in New Mexico, but now the pastor of a church at Falls Church village, kindly came to our assistance. He remained with us three weeks, preaching every night to large and attentive audiences. Some of his sermons, especially those in which he would depict the striking incidents of the life of the brother who preceded him, were blessed in the conversion of souls; and he, also before he left, had the pleasure of seeing some fifteen more rejoicing in a good hope in the Saviour.

After Bro. Read's departure, the Rev. G. W. Sanson, of Washington, preached for us two nights. Rev. C. George two nights, and the Rev. G. F. Adams, of the same city, one night. Under the ministry of these three brethren, also, as the time they spent with us, others have been brought to a saving acquaintance with the truth as it is in Jesus. Thus, from the opening to the close of our meeting, and it has only just now closed, the Lord has not ceased to bless us.

About eighty, in all, came forward to ask an interest in the prayers of the Lord's people. I have already baptized forty. About ten more are waiting to be baptized; and about ten more are, deeply concerned about their souls' safety.—S. M. S.

A Loving Room. Mary hath chosen that good part, which shall not be taken away from her.—Luke X, 42.

Oh what is man? He's but at best The simple being of a day, He lingers here a little while, And then is taken for e'er away. His time on earth indeed is short, His life but as a fleeting shade, A little hour, that budeth forth, It blooms, and then—tis sure to fade.

And what are all his pleasures, too, Ah! what is honor, riches, tamer When time with us shall be no more, Or rich, or poor, 'tis all the same, There is a treasure all can gain, But not of the "earth earthly" given, 'Twill take us thro' this vale of tears, And then will land us in Heaven.

It comes from God, alone, on high, Who over earth hath full control, Tho' His abounding, powerful, grace, It is religion in the soul, It helps us thro' these worldly scenes, Nor ends it with our dying day, By faith, 'tis that lasting boon, "Which never can be taken away."
